

## Mexico Republicanano Condemns the Ideological Use of the Metropolitan Cathedral

Mexico City, July 17, 2025

The Mexico Republicanano Party strongly condemns the use of the Metropolitan Cathedral of Mexico City as a platform for projecting images related to abortion and other ideological causes, promoted by the Government of Mexico City during the event titled “*Memoria Luminosa*.”

Using a sacred site—an historical and spiritual landmark for all Mexicans—for propaganda and ideological activism is not only an affront to the Catholic faith, which millions of citizens profess, but also a violation of the principle of respect and neutrality that must govern the relationship between the State and religious beliefs in a truly secular republic.

The Archdiocese of Mexico has publicly expressed its disapproval of this act, denouncing that the projections were carried out without authorization and that the messages “deeply wounded the faith and fundamental principles that Catholics profess.”

Mexico Republicanano:

- Demands a public apology from the Government of Mexico City for this offensive and divisive act.
- Calls for the immediate halt of any ideological projections on the Metropolitan Cathedral or other religious temples.
- Stands in solidarity with the Catholic community and all citizens who believe in mutual respect between civil authority and spiritual convictions.

Public spaces should be places of unity, not tools of ideological imposition. Religious institutions deserve respect—not manipulation for partisan or culturally biased agendas.

A true republic is built on respect, not provocation.

Freedom. Greatness. Strength.
