

Statement from *México Republicano*

México Republicano demands extraordinary measures following the assassination of Uruapan Mayor Carlos Manzo

Mexico City, November 1, 2025

México Republicano expresses its deep sorrow and strong condemnation over the assassination of **Carlos Manzo**, Mayor of Uruapan, which took place tonight during a public event in the center of that Michoacán city.

This cowardly attack on an elected and representative official reflects the critical and deeply concerning security situation our country is currently facing. The execution of a sitting mayor—who had requested federal assistance after denouncing the presence of criminal groups and training camps in his municipality—exposes the collapse of institutional capacities to protect the lives of public servants and citizens alike.

México Republicano urges the administration of President **Claudia Sheinbaum** to immediately adopt **extraordinary measures** to contain the surge of violence and restore territorial control of the Mexican State. It is imperative to act decisively and without evasion in the face of the growing dominance of criminal organizations that openly challenge local and federal authorities.

The murder of **Carlos Manzo** must not go unpunished or be treated as an isolated incident. It represents the gravest symptom of a national crisis in **security, governance, and the rule of law**, one that demands substantive action— not rhetoric.

México Republicano reaffirms its commitment to defending **legality, life, and liberty**, and calls on all political and social forces in the country to **stand united against the violence** that threatens the very foundations of our Republic.

Sincerely,
Freedom. Greatness. Strength.
